

# Receiving Magnetic Loop Antennas

If you can read in **Russian** you can download a free 56- pages e- book "Receiving Magnetic Loop Antennas" by Igor Grigorov, RK3ZK. The book is e-variant of a chapter from a paper book "Antennas for Radioamateurs printed in Russia". Some fragment of the book was translated in the English and was published (and, as I hope, will be published) at ANTENTOP. Other fragments of the book also going to translated in the English. Below you can see the Contents of the book and path to load the Russian variant.

## Receiving Magnetic Loop Antennas

By Igor Grigorov, RK3ZK.

**Free e- book!**

**Download!**

### Table of Contents

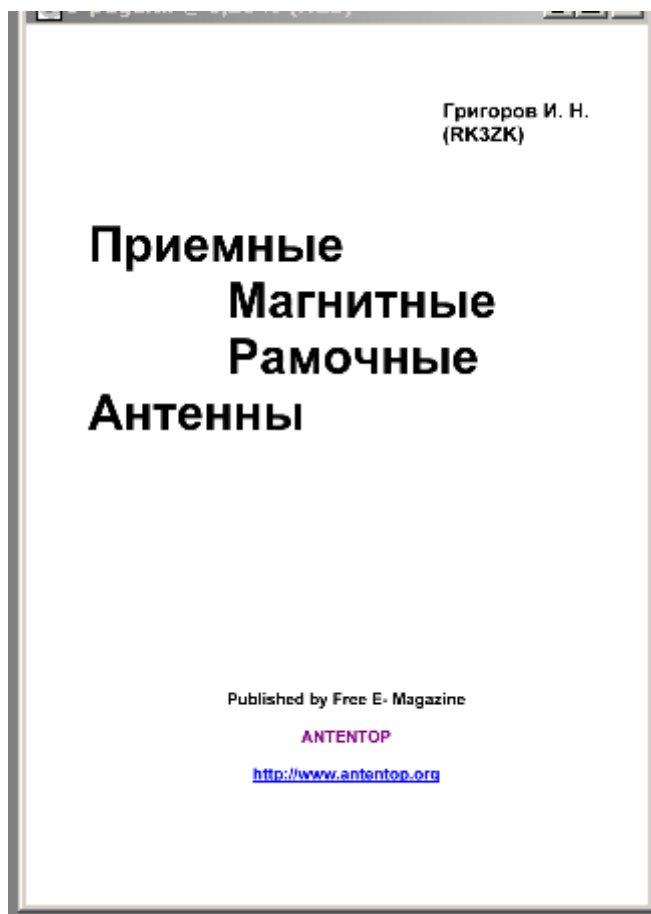

#### Receiving Magnetic Loop Antennas

1. History of Magnetic Loop Antennas
2. Vertical Magnetic Loop Antenna pattern
3. Resonant and not resonant Magnetic Loop Antennas
4. Magnetic Loop Antennas with cardioid pattern
5. Magnetic Loop Antennas with switched cardioid pattern
6. Magnetic Loop Antennas with electronically changed cardioid pattern
7. Transmitting Magnetic Loop Antennas with cardioid pattern
8. Shielded Magnetic Loop Antennas
9. Radiodeviation
10. Efficiency of Magnetic Loop Antennas
11. Antenna effective height
12. Non- Resonant Magnetic Loop Antenna effective height
13. Resonant Magnetic Loop Antenna effective height
14. Example of simulation of effective height for Magnetic Loop Antenna
15. Magnetic Loop Antenna with active amplifiers
16. Some ways of matching Receiving Magnetic Loop Antennas
17. Anti- noise Magnetic Loop Antennas
18. Ferrite Magnetic Loop Antennas
19. Effective height for Ferrite Magnetic Loop Antennas
20. Transmitting Ferrite Magnetic Loop Antennas
21. Practical designs of Ferrite Magnetic Loop Antennas
22. Connections of Ferrite Magnetic Loop Antennas to receiver
23. Receiving Magnetic Loop Antennas in a professional radio communication
24. Small-sized Magnetic Loop Antenna of a Radio-home
25. Basket - type Magnetic Loop Antennas
26. Basket - type Magnetic Loop Antenna of a simple tube direct amplification receiver
27. Basket - type Magnetic Loop Antenna of a simple tube superheterodine
28. Magnetic Loop Antenna of a simple tube superheterodine

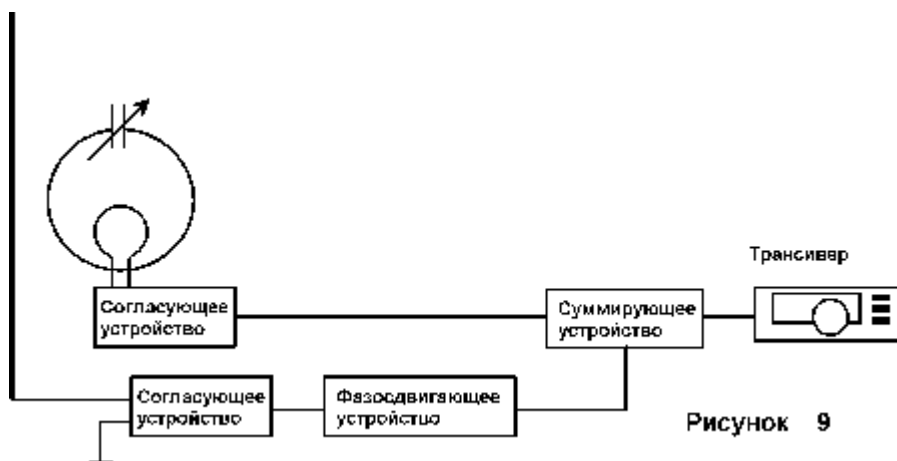

- 29. Magnetic Loop Antenna of a SW tube receiver
- 30. Magnetic Loop Antenna for the 160 meters
- 31. Magnetic Loop Antenna for the 160 - 40 meters
- 32. Receiving TV Magnetic Loop Antennas
- 33. Simplified VHF Magnetic Loop Antenna
- 34. Magnetic Loop TV Antenna for receiving in conditions of the strong reflected signal
- 35. Magnetic Loop Antenna – Low-Pass Filter
- 36. Magnetic Loop Antenna with a TV dipole antenna
- 37. Multichannel TV Antenna
- 38. TV Antenna with spiral vibrator
