

Old QSLs

By: Igor Grigorov, VA3ZNW

It is just a memory, my old QSL cards. The cards were sent for my QSO's that I made in the far 1991 to 2004 years. I have tried to send QSL cards for all of my QSOs. However, I do not know if my cards have reached the correspondents. It was not a simple era in the ham radio in the Russia. I have sent QSLs... I have to pay for sending and receiving...

However I received almost nothing in the times. What I received came to me through G-QRP-C and UW6HS- QSL- Bureau. But anyway it was fun to work in the Air and have some hope that my cards have reached to my correspondent.
